

## NORMAL CLAMP W2 9mm band

CLAMPS AND TIGHTENING SYSTEMS › SCREW CLAMP AISI 430 - W2

TORRO cable tie made in Germany with high performance and seals.

The shape of the screw/drawer system is able to guarantee high tightening torques and satisfy the most demanding applications; the edges of the band are rounded to avoid damage to the tubes.

### BAND 9 mm

standard supply entirely in W2 AISI 430 steel

- Asymmetrical case to prevent the drawer from twisting when closing
- uniform distribution of forces and safe assembly. Screw with integrated guide collar
- ease of assembly thanks to the collar integrated into the screw that guides the cable tie tape
- Construction material and clamping range indicated on the tape
- prevention of errors Asymmetric drawer position
- prevents the case from tilting when tightening the small drawer saddle clamp
- uniform distribution of contact pressure
- better efficiency Smooth or internally printed ribbon
- optimal protection of the tube thanks to the band with rounded edges
