

STAINLESS STEEL CLAMP 9mm W4-W5 band

CLAMPS AND TIGHTENING SYSTEMS › AISI 304-316 W4-W5 STAINLESS STEEL CLAMPS

TORRO cable tie made in Germany with high performance and seals.

The shape of the screw/drawer system is able to guarantee high tightening torques and satisfy the most demanding applications; the edges of the band are rounded to avoid damage to the tubes.

BAND 9mm

standard supply entirely in W4 AISI 304 steel

supply on request entirely in food grade W5 AISI 316 steel

- Asymmetrical case to prevent the drawer from twisting when closing
- uniform distribution of forces and safe assembly. Screw with integrated guide collar
- ease of assembly thanks to the collar integrated into the screw that guides the cable tie tape
- Construction material and clamping range indicated on the tape
- prevention of errors Asymmetric drawer position
- prevents the case from tilting when tightening the small drawer saddle clamp
- uniform distribution of contact pressure
- better efficiency Smooth or internally printed ribbon
- optimal protection of the tube thanks to the band with rounded edges
