

ARS COLLAR

CLAMPS AND TIGHTENING SYSTEMS › ARS MODEL COLLAR

Suitable for the safe and reliable connection of exhaust pipes of internal combustion engines where a male-female coupling is foreseen, even for those that are subject to significant temperature fluctuations.

One-piece clamping band

- uniform contact pressure along the entire circumference of the tube
- Excellent sealing properties

Single bolt closure for easy assembly.

Rounded band edges for tube protection and reduced risk of injury.

Material W1 free from Chromium VI - available on request in W2 - W4 - W5 steel
Packs of 10 pieces
