

mini hose reel for the food sector

HOSE REEL › Mini hose reel

Spring hose reel in WHITE painted steel "mini" series with single side suitable for use at distances of up to 25 m for micro-perforated dn 1/2" hoses for high pressure for hot or cold water used in the cleaning sector of the food, pharmaceutical and Not.

The innovative construction design makes the reel particularly suitable for applications in environments with limited availability of space in width thanks to a maximum size of 150 mm, for example inside compact boxes.

The presence of a swivel bracket (on request) allows rotation beyond 90° for frontal use and rapid repositioning after use without creating obstacles for the operator or other equipment.

On request version with brake-spring kit

On request hose reel with stainless steel pin for water suitable for human consumption.
